

# CONQUEST HD120

## RIDE-ON POWER SWEEPER

### BUILT TO LAST

HD120 boasts a wide 1350mm sweeping path using the main broom and one side broom. An optional second side broom increases the sweeping path to 1500mm for extra coverage. The HD120's superior engineering saves you time and effort, with the self-levelling spring-loaded brush that allows for cleaning across different surfaces without stopping for manual adjustment.

HD120 comes equipped with a high capacity vacuum fan in addition to a 250-litre waste hopper bin capacity and heavy duty, corrosion resistant steel construction.

# HD120

Using advanced battery technology the HD120E is very quiet and has increased run time of up to 50% on traditional sweepers. Ideal for sensitive or low emission areas.

## Features & Benefits

- The direct throw sweeping system pitches debris directly into the hopper.
- Heavy duty, powder coated steel construction is built to withstand the harshest operating environments.
- 6m<sup>2</sup> washable polyester filter lasts up to five times longer than filters in comparable machines.
- Self-levelling, spring loaded brush enables HD120E to clean across multiple surfaces without stopping to manually adjust brushes.
- Electric filter cleaner with simple switch activation to automatically shake the dust out of the filter, into the waste hopper.
- 250L waste hopper with hydraulic dump height of 1420mm allows for longer sweeping periods.
- Hydraulic direct drive with fewer moving parts reduces potential maintenance concerns.
- Using advanced power technology, the HD120E is super quiet and has a 50% increase on run time compared with traditional sweepers

## Technical Specifications

HD120LPG	
Cleaning Width	1200mm sweep path with main broom and one side broom
Theoretical Cleaning Capacity	10,800m <sup>2</sup> per hour (max. speed)
Power Supply	3cylinder, 24HP water cooled, Kubota engine
Waste Hopper Bin Capacity	250L with hydraulic high dump
Filter Type	6m <sup>2</sup> polyester filter
Variable speed	0-9Km/hr
Machine Dimensions	2080 (L) x 1250 (W) x 1450 (H)mm
Weight	851kg
