

SDS80E-D

Super Duty Walk-Behind Industrial Scrubber

CAPACITY AND DURABILITY

SDS80 is built to impress. Durable yet agile enough to navigate narrow spaces, the SDS80 delivers the highest scrub pressure in its class, for powerful results on even the toughest surfaces. An operators' delight, the machine features large tanks, enabling efficient coverage of large spaces without the need to refresh water mid-task. Featuring corrosion resistant, stainless steel components, SDS80 can is made to take on the harshest of applications.

SDS80E-D

A powerful walk-behind scrubber with the capacity to handle the toughest applications.

Technical Specifications

SDS80E-D

Cleaning Width	865mm scrub path	Brush Pressure	0 – 113Kg
Solution/Recovery Tank	122L / 125L	Power Supply	4 x 24V, 245 Ah deep cycle battery
Scrub Head Motor	2 x 746W	Battery Charger	On-board charger
Brush Speed	350RPM	Machine Dimensions	1500 (L) X 660 (W) x 1020 (H)mm
Variable speed	0-6.4Km/hr	Weight	374Kg

Features & Benefits

1 STAINLESS STEEL SCRUB COMPONENTS

Scrub head, hopper, and fasteners are corrosion resistant for long service life in harsh environments.

2 HEAVY-DUTY POLY TANKS

10mm thick poly solution and recovery tanks provide durability and are backed by a 10-year warranty.

3 NON-MARKING URETHANE ROLLERS

Protect the scrub deck and motors while preventing damage to walls and surrounding property.

4 HIGH BRUSH PRESSURE PERFORMANCE

Delivers the highest brush pressure in its class with fully adjustable settings for different surface types.

5 LOW-NOISE OPERATION

Quiet scrubbing and drying performance allows use even in noise-sensitive environments.

6 MANAGER LOCK-OUT CONTROLS

Prevents unauthorised changes to solution flow and brush pressure settings.

7 INTEGRATED WASH-DOWN SPRAY WAND

Allows operators to easily clean hard-to-reach areas.

8 TILT-BACK TANK DESIGN

Provides quick access to internal drive and working components for easy maintenance.
