

SD180D-LPG

Super Duty Ride-on Industrial Sweeper

HIGH PERFORMANCE AT LARGE SCALE

Manufactured in the USA, the SD180 super-duty sweeper is built from agricultural-grade, E-coated steel for exceptional durability in demanding industrial environments.

Featuring a large 620L waste hopper, it allows operators to clean large areas with fewer interruptions for emptying. Designed for performance and long-term reliability, the SD180 is available in Diesel and LPG fuel options.

SD180D-LPG

The SD180 Super Duty Industrial Sweeper is a powerhouse engineered to excel in the toughest environments.

Technical Specifications

SD180D-LPG

Sweeping Width	1625mm main broom + side broom	Waste Hopper Empty Height	Variable to 1500mm
Power Supply	24.8 HP Kubota Diesel Engine 55 HP Kubota LPG Engine	Operational Incline	Up to 16%
Filtration Type	10.2m ² Dual Dust Panel Filtration to 1 Micron	Machine Dimensions	2667 x 1626 x 1409mm
Waste Hopper Capacity	620L		

Features & Benefits

1 ROBUST HEAVY-DUTY DESIGN

Eliminates the need for complex electronics, ensuring long service life and reduced downtime.

2 AGRICULTURAL-GRADE E-COATED STEEL CONSTRUCTION

Provides superior durability and corrosion resistance for long service life in harsh operating conditions.

3 TOOL-FREE BRUSH CHANGE & SWING-OUT ENGINE ACCESS

Simplifies maintenance and servicing, saving time and reducing operational downtime.

4 RAISEABLE LARGE-CAPACITY WASTE HOPPER

Hopper lifts up to 1500mm, allowing easy and efficient emptying into waste receptacles.

5 FULL-VIEW DEBRIS HOPPER DESIGN

Gives operators clear visibility of collected debris to monitor fill levels and maintain optimal performance.

6 FLASHING LIGHTS & WORKING HEADLIGHTS

Improves safety and visibility when operating in low-light environments.

7 WIDE 2000MM SWEEPING PATH

Maximises productivity by covering up to 17,168 m² per hour, allowing large areas to be cleaned quickly.

8 SIMPLE, OPERATOR-FRIENDLY CONTROLS

Easy operation supports users of all experience levels.
